## Why Aegis ZTaaS?

- ✓ **Speed up modernization**
  - Traditional, perimeter-based security is antiquated, inconvenient, and ineffective against modern threats. Zero Trust is the more secure, more efficient framework for IT infrastructure.
  - Automated, tried and true deployment
    - Quick and Efficient
- ✓ **Quickly achieve compliance**
  - Based on NIST 880-171
  - Enforce policy compliance
- ✓ **Untangle and demystify Microsoft's security toolset**
  - Best set of security tools in market today
    - Gartner and Forrester stats
- ✓ **Work with a trusted partner**
  - IAMCP Gold award for excellence in partnership
  - Microsoft Security, Modern Work, and Infrastructure Solutions Partner
  - Trained by Microsoft executives on best practices for Zero Trust
- ✓ **Develop a roadmap**
  - Knowledge transfer
